The Hi-Speed, Easy-to-Use, BookScan Station Professional

The Next Generation

The BookScan Station Professional is a high-speed, easy-to-use, self-service book scanning kiosk for library patrons and staff. Performing at more than 200% faster than the industry standard BookScan Station 2050, the BookScan Station Professional converts a scanned page into a searchable PDF file format in less than 4 seconds at 200 dpi black and white. The BookScan Station Professional includes a state-of-the-art, LED-based, energy-saving, Instant-On, Book-Edge scanner, (model FB6280E) that scans an 11" x 17" page in under 5 seconds in black and white at 200dpi. Over 100 public and university libraries in the last year alone have chosen the BookScan Station for its easy-to-use, yet powerful features. For high volume locations, library patrons and staff can now increase the availability and reduce their scanning time when they upgrade to the faster BookScan Station Professional. Visit our website at www.bookscanstation.com to see case studies about BookScan Station installations and testimonials, and the features and benefits library patrons and staff value most.

Protect the Book Spine

The BookScan Station's patented scanner design allows the book page to lie flat on the glass, thus capturing the full image of the page without distortion. The design also protects the spine of the book from damage, thus extending the book's life. The BookScan Station can automatically auto-crop, auto-straighten and auto-orient each page scanned.

Unmatched Accuracy

The BookScan Station is integrated with the ABBYY FineReader Engine for unmatched Optical Character Recognition accuracy. The FineReader Technology takes the scanned images of the books or documents and makes them machine readable in several common formats, including PDF and Word. ABBYY's multilingual document recognition engine automatically detects English, French, Italian, German, and Spanish languages.

Special Features

- Convert a scanned page into a searchable PDF file in under 3 seconds

- Instant-on, high-speed scanner with patented Book-Edge design, captures full pages of text without distortion.

- Book Pages lie flat on glass, protecting the spine of the book

- Powered by ABBYY FineReader Technology for unmatched Optical Character Recognition accuracy

- Easy-To-Use Touchscreen software guides user through the scanning process

- Converts scanned images into PDF, searchable PDF, JPEG and Word file formats automatically.

- Send scanned files to USB drive, to Google Docs, to network folder, to printer, or email as an attachment

- Integrate with Automatic Document Feeders rated at up to 120 images per minute

- Supports Blackboard Transact, ITC, Vendapin and Jamex payment systems, with optional Magnetic Stripe Card Reader

- Paper Free, Save a Tree!

The Hi-Speed, Easy-to-Use, BookScan Station Professional

TOUCH SCREEN TO BEGIN

Convert Books, Documents and Photos into PDF, Word, JPEG or DJVU or Files

Easy-To-Use

Designed to be easy to use with large friendly buttons, the BookScan Station touch screen guides the user through the scan process including choosing the file formats, scan quality, color depth, file naming, and destinations. Scan books and documents into PDF, text-searchable PDF, JPEG, and Word file formats by simply touching the screen for the preferred file format. Searchable PDF files allow you to search for any word in the PDF file or copy text out. Word files may be opened and edited in any Word compatible text editor.

Paper Free, Save a Tree

Save the scanned files to your USB drive, to Google Docs, to a Network Folder or FTP site, and to email as an attachment. Digital copies can be referenced repeatedly and shared with others while preserving our forests. It's good to be GREEN. The BookScan Station offers touch-screen scanning to:

- Network Folders
- FTP (SSL/SSH)
- USB Flash Drive
- Fax
- OneDrive
- Printers
- Google Docs
- Email as an attachment
- Smartphone/Tablet
- Dropbox

Supported Billing Systems

The BookScan Station is Blackboard Transact (on-line payment system) certified and is integrated with ITC, Jamex and Vendapin (off-line payment systems) coin and debit card systems. The BookScan Station also works with several of the leading print management vend systems such as Pharos, Envisionware, and P-Counter.

Add-On Options

The BookScan Station Professional may be configured to support optional BulletScan document scanners rated at up to 120 images per minutes. The BookScan Station Professional also offers an optional 3 Track (RS-232 / PS2 Interface) Magnetic Card Reader for identifying and authenticating authorized users.

Affordable

The Bookscan Station Professional system starts at $4,845 including a 1 year manufacturer's warranty, and may be leased for as little as $169/month. For more information on how you can offer your patrons the next generation in easy-to-use, self-service book scanning solutions, please visit www.bookscanstation.com.

PC Specifications

Processor	Intel Dual Core i3 - 3.1GHz
Memory	4GB DDR3 SO-DIMM
Hard Disk Drive	320GB SATA
USB Ports	4x USB 2.0/2x USB 3.0 (2x on I/O, 2 x on Front Access)
Serial Ports	2 x RS-232 (standard)
Ethernet Ports/Wireless	1 X LAN RJ45 (Gigabit), Wifi (802.11 b/g/n) Bluetooth
Display	17.0" TFT LCD (LED)
Dimensions	15.63"x 13.94" x 2.67" (397.29 x 391.07 x 251.7mm)
Weight	15.95lbs (7.24kg)

Scanner Specifications

Throughput Speed	4.5 sec. Color, B/W at 200/300 DPI 6.0 sec. Color, B/W at 200/300 DPI (Includes Back Home)
Scanning Type	Flatbed, ADF (optional)
Scanning Technology	CCD
Light Source	LED
Color mode	48bits input 24bits output
Grayscale mode	16bits input 8bits output
Recommended Daily Volume	5000 pages
Optical Resolution (dpi)	600 DPI
Flatbed Maximum	11.8 x 17 in (300 x 432 mm)
Interface	USB 2.0
Power Consumption	< 38.4 W
Electrical Requirements	Input: 100-240 VAC, 50/60 Hz Output: 24V, 2.0A
Dimensions (W x D x H)	25.4 x 16.9 x 5.3 in (645 x 428 x 135 mm)
Weight	16.8 lbs. (7.6 kg)
